## Preparing for your learner licence test

Thinking about getting your learner licence? Here are some tips and information for preparing.

To get a learner licence, you must:

be at least 16 years old

be able to correctly answer 32 out of 35 questions on the road code

- One of the ways to prepare for the learner licence test is by working your way through Drive's Road Code. <a href="https://drive.govt.nz/learner-licence">https://drive.govt.nz/learner-licence</a> or use the QR below.
- Drives Road Code contains chapter tests at the end of each section. These are like mini practice tests and a great way to check you're on the right track.
- Complete all the chapter tests and you get access to their official practice test. If you're consistently getting every answer correct in the practice test, that's a good sign you're ready for the real thing.
  - Otherwise the Road Code or an app are popular with students, details below.

The AA website offers a free trial test

www.aa.co.nz

You can also purchase the Official AA Road Code for \$25 + postage, through the AA website.

Otherwise, most students are using aps to practice their tests like this one:

## **Learners Licence test:**

Each Road Code Practice Test has 35 questions - for a car license you must get 32 out of 35 to pass. Each practice test of 35 questions is randomly generated from all the test questions found in the official NZ Road Code.

Some of our school programs and workshops are able to fully fund Learners License applications, but if you go privately to do your test expect these fees: As of 8 July fees have changed. Your second attempt is covered in the application fee if needed, but attempts after these will each have a fee.

Car (class 1)	Application fee (includes 2 tests)	Test fee for each test from 3rd attempt
Learner	\$96.10	\$54.60

The key for success, is to practice, practice, practice. Good luck.
